

For many years I have been a listener to 94.3 FM here in the western suburbs of Chicago. K-Love Radio Network utilizes this signal to transmit in my area. There are virtually NO alternatives to this type of music, news and Christian based information in my area, and thus this radio station is greatly appreciated. If K-Love were to be displaced by an LPFM broadcaster providing other programming it will be nothing less than a tragedy, and crime on the part of the FCC. As a member of the Christian community, I implore you to NOT change the status quo. K-Love provides an alternative to all the trash talk, depressing news, mindless talk radio and many other radio markets currently more than well served in the Chicago area radio market. Please do NOT allow any changes to the frequencies that would jeopardize K-Love's FM signal. I am one voice speaking for many who will not have taken the time to tell you how IMPORTANT K-Love is not only to the Christian community, but again, it DOES provide a much needed reprieve from the mundane and mindless drivel that is allowed to go out on the airwaves today. I beg you to consider that you will do yourselves proud to NOT silence the voice that K-Love speaks to all the 94.3 FM listeners in our area. Thank you for your time.
